### Request for Proposals for Solar Panel Installation and Commissioning

#### Addendum #2

Please mark all proposal submission  
envelopes with the following information

**Sealed RFP # S051004**  
**Closing on September 25, 2009 at 2:00 PM, MST**

This addendum is issued to answer questions received prior to the September 11<sup>th</sup> that were not included in Addendum #1.

1. What standards are going to be employed with respect to the electrical system?

The standards for the electrical system will be the 2003 IBC standards

2. Do you have an example of what you want the installation to reflect?

Examples of the installation were in the original RFP. There were both technical drawings and photos from an installation in Europe.

3. Who is or will be responsible for any solar panel warranties, performance of the system, and or damage caused by the elements?

The installer is responsible for optimizing the system performance.

4. We also need to know the weight of each panel?

Answered in Addendum #1

All else remains the same.
