Procurement and Contracting Services

Request for Bids for Labor Contract for
The Maricopa Agricultural Center

ADDENDUM #1

Please mark all bid submission
Files with the following information

Sealed RFB # L252101
Due on April 23, 2021 no later than 2:00 PM, MST
1. What is the amount of total general laborers needed at a given point in time?
   a. Exact size of crew will vary by day, time and project. It is seasonal but some large crews may be around 10 people, while others will be around 3-5 a day on average. These amounts would include a working supervisor generally and will fluctuate.

2. How many projects might there be?
   a. Typically, there will be multiple going on at once, might have a crew in one location, and then later that day the crew will move onto another location. This can happen throughout the day or vary from day to day as locations change frequently depending on the current need.

3. What will be the requirement for a portable restroom?
   a. Plan to have one each day for the crew. There may be days or times during a day where the main facility is close enough for the workers, however, there are many times where we are a distance from the main facility and the portable restroom will be needed.

4. Who will be the lead contact?
   a. Russell will generally coordinate the field work, while Vince will handle the inside/cleaning laborers. This may change with notice.

5. What is the distance from the further location of the property?
   a. The sites will be about 1 mile from the main building at the furthest.

End of addendum, all else remains the same.
