Request for Bids for Laboratory Support Service for Building, Operation, and Training of a Vacuum Spectroscopy Facility

ADDENDUM #2

Please mark all proposal submission Envelopes with the following information

Sealed RFP # L191907
Due on November 9, 2018 no later than 2:00 PM, MST
The following questions were received before the technical question/inquiry due date of November 2, 2018 at 12:00PM MST:

1. Please clarify what insurances are requiring of us? Sections 4.24 – 4.27 on pages 17 and 18 don't seem to correlate with the insurance requirements listed on page 28. The requirements listed on pages 17 and 18 seem more appropriate and our policies meet these requirements.

   The University is willing to match the requirements in section 18 of Exhibit A to match the requirements listed in 4.24-4.27 of RFP L191907

2. Under Section 4.41 Termination, there should be some language in which the contractor can terminate the agreement with notice. If our person gets hit by a bus, we would be unable to perform. Is there language I am missing somewhere that would address this? If not, perhaps something like: 4.41. Termination by Vendor. The successful vendor may terminate the Agreement with 30 days’ notice.

   The University would consider making the termination clause in Exhibit A - 28(a) mutual. Please make any requested changes to Exhibit A and return with your proposal response.

3. Should we note circumstances when the requirement "should be ... available to consult in person at the University of Arizona at least twice a week for 8-hours" may not be met.

   Yes, please note any exceptions to our specifications or terms.

End of addendum, all else remains the same.
