1.0 STATEMENT OF WORK

Project Description. The University of Arizona Student Success District (SSD) project encompasses renovations and additions of the Main Library, Science Engineering Library, and Bear Down Gym. There will also be a new 60,000 gross square foot, four story building scheduled to begin phased occupancy in March, 2020.

SSD will create a district to improve student success through direct connections among student services, academic support and amenities in the heart of campus. The district will bring together student counseling, tutoring, course selection, assistance with their majors, aligning internships, coaching and facilitating job interviews and health and wellness.

The University’s initiative is to engage every student on campus and provide resources they need to be successful in their time at the University and prepare them to enter the workforce.

Many of the spaces within the new buildings are designed to include state-of-the-art audio visual technology. There are flexible large, medium and small group learning areas, various sizes of collaboration and group study spaces, a Virtual Realty Lab, Research Center, and varying sizes of conference rooms.

The University is seeking the most responsive and best qualified Audio Visual vendor with the interest, capability, and financial strength to achieve the successful realization of this complex project. The selection process will be based on both qualifications and pricing. Specific Evaluation Criteria is included below.
